Re : Certificate of conformity
Subject : Heavy metals and dangerous goods materials

It is herewith stated that the goods covered by this document are of Dutch origin and were manufactured in our plant in The Netherlands according to our ISO 9001, ISO 14001 and HACCP system checked by Lloyds Register Quality Assurance. The products comply with our Drug Master file number 16388 filed by the FDA in the USA and have UN certification.

The used raw materials and masterbatches are excellently suitable for foodstuffs checked by migration tests and do not contain any harmful components, such as Heavy Metals, Phthalates, Genetically Modified Organism (GMO), TSE (Encéphalopathies Spongiformes Transmissibles), BSE (Encéphalopathie Spongiforme Bovine), Bisphenol A (BPA), Dimethylfumaraat (DMF), Melamine or Substance of Very High Concern (SVHC).

We produce our products according directive 2023/2006/EC which indicates that they are produced according to GMP for plastics.

We have preformed Moist Vapour Transmission tests and light transmission tests. The tests indicate that we comply with the USP <661> Plastic containers. Due to the fact that we only use food grade materials and previous tests indicates that we comply to the following regulations: EurPh 3.1.2 Polyolefin's and EurPh 3.2.2 Plastic containers.

Our reference :7000 series white/red and/or UV protected, 6900 series white/red; brown beige and/or UV protected

Yours sincerely,

H.J. Pronk
