

# Bostron 7x50 Waterproof and Fog Proof Binoculars with large eyepieces and wide field of view

This is a pair of Bostron 7x50 binoculars with superb image quality and high performance under almost all weather and field conditions. These binoculars provide the best balance between power, steadiness and image brightness. The 7x magnification is acknowledged to be the maximum strength that can be handled satisfactorily at sea or on a moving vehicle. Built with Bak-4 optics, these binoculars provide clear views of natural or marine observation from dusk till dawn. Perfect for camping, hiking, boating, fishing and travel.

## Features:

- Fully multi-coated green lenses to maximise light transmission for superior brightness and clarity.
- Bak4 prism with top quality image.
- Large objective lens (50mm diameter) increases light gathering ability thus delivering brighter images even in low-light conditions.
- Large eyepieces (25mm diameter) for comfortable view.
- Fold-down eyecups for users wearing eyeglasses.
- 396ft./1000yd. wide field of view.
- Adjustable eyepiece focus for both eyes.
- Waterproof construction.
- Rubber armour designed to protect and absorb shock.
- Internal compass and rangefinder scales: can use natural lighting and LED light.
- Ideal for all-weather conditions.
- Colour: army green
- Includes: Nylon carrying case, lens caps, manual, neck strap, and lens cleaning cloth. All packed in a colour print gift box.
