## Certificate of Conformity

Liferaft Iron Galvanized Cradle Horizontal for two parts of 25 person  
Liferaft Iron Galvanized Cradle Vertical for two parts of 25 person  
Liferaft Iron Galvanized Floor for one parts of 25 person

We declare that the mentioned product is in accordance with the design, dimensions, application, construction and robustness requested by IMO Norman 05/Item 0333/e.

Manufactured with angle brackets and ASTM A588/NBR7007 AR350 COR profiles of low-alloy, high-strength structural steel developed for metallic structures, aiming at reducing weight due to higher mechanical resistance, with greater resistance to atmospheric corrosion, when compared to with a commonly used carbon steel.

Used for metal structures in general, agricultural Machinery, road and rail implements and other applications.

Hot-dip galvanized for total resistance to the corrosive weather conditions of sea water, mountable with screws for better transport and suitability on board the vessel. Welding, resistance and corrosion warranty for 2 years.

Pinhais, 30/01/2023
