

FANN INSTRUMENT COMPANY
A Product Service Line of Halliburton Energy Services, Inc.

Certificate of Conformity

We certify that following equipment is new and has been manufactured to Fann's standards of high-quality material and workmanship and has passed our inspection and testing procedures.

The equipment is tested and inspected in accordance with Fann's rigid quality control requirements. In addition to numerous "in-process" inspections, each Fann manufactured item, is required to pass specific functional tests to insure proper assembly and good workmanship.

206884	FUNNEL VISCOSITY MARSH PLASTIC
103156934	MODEL 145 MUD BALANCE W/CASE
209657	KIT SAND CONTENT

We certify that listed above equipment manufactured by Fann Instrument Company, meets or exceeds the standards established for Drilling Fluids and Well Cements Testing by the American Petroleum Institute (API). The API Standards are illustrated in the following publications:

API 10A/ISO 10426-1:2009;
API 13A/ISO 13500:2006;
API 13B/ISO 10414-1:2008;
API 10A/ISO 10426-1:2008;
API 10B-2/ISO 10426-2:2003.

This certificate is provided in accordance with the Fann Instrument Terms and Conditions of Sale.
