Product description

"HGS40-30000"

rocket parachute flares ejecting a red flare on a parachute at 300 m altitude with burning time not less than 40 seconds and with average luminous intensity of minimum 30.000 candela. Tested with drop height 18 m.

Design weight: 400 g

Application/Limitation

The design assessment is based on IMO Res. MSC.48(66).

Production and installation testing shall be carried out according to IMO Res. MSC.81(70), Part 2, Ch.4.

Acceptable lifetime: 3 years

Type Examination documentation

Test report from tests performed at Qingdao Good Brother Marine Lifesaving Appliances Co. Ltd. Qingdao, China 26th April 2006 witnessed by DNV GL Qingdao.

Test report from colour test performed 17th October 2006 witnessed by DNV GL Qingdao.

Drawings from manufacturer for HGS40-30000 dated June 2003

Tests carried out

Tests are documented in accordance with recommendation on testing of Lifesaving Appliances, IMO Res. MSC.81(70) Part 1, as amended by IMO Res. MSC.226(82), and IMO Res. MSC.323(89).

Marking of product

The product is to be marked with name and address of manufacturer, type designation, date of manufacture, date of expiry, operational restrictions, Mark of Conformity and USCG number if applicable (see first page).

The product should be provided with brief instructions or diagrams clearly illustrating the use printed on the casing.
