Marine Equipment Directive Assessment of the Tron 60AIS

To whom it may concern,

TÜV SÜD DANMARK ApS have carried out an assessment of the Tron 60AIS to verify that the product is in compliance with the Marine Equipment Directive 2014/90/EU.

The current Commission Implementing Regulation (EU) 2021/1158 of 22 June 2021 does not include the most up-to-date regulations, resolutions and testing standards to enable a Module B Type Approval Certificate to be issued for the Tron 60AIS against Item Designation MED/5.6, 406MHz EPIRB (Cospas-Sarsat).

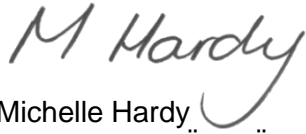

The Tron 60AIS has been tested, assessed and found to be compliant with the following requirements:

IMO Resolutions	International Testing Standards	
IMO Res. A.694(17)	IEC 60945 (2002) inc Corr.1 (2008)	General Requirements for Marine Navigation Equipment
IMO Res.MSC471(101) IMO Res MSC/Circ 862 IMO Res A.696(17) IMO Res A.662(16) ITU-R M.633-4 (12/10) ITU-R M.690-3 (03/15)	IEC 61097-2 Ed. 4 (2021) inc. Corr 1 (2021)	Global maritime distress and safety system (GMDSS) - Part 2: COSPAS-SARSAT EPIRB - Satellite emergency position indicating radio beacon operating on 406 MHz

As soon as the Commission Implementing Regulation is updated to include the above resolutions and test standards, or an alternative solution is agreed, TÜV SÜD DANMARK ApS will issue the Module B Type Approval certificate for the Tron 60AIS.

Note: This letter is not intended to replace the Module B Type Approval Certificate and does not enable any legislative marking (Wheelmark or CE) to be applied to the product.

Yours sincerely

A handwritten signature in black ink that reads "M Hardy". The signature is written in a cursive style with a large, sweeping initial "M".
